

Keeping Up With Riviera

September 2020

Issue 1

REOPENING OF SCHOOL

Schools will be reopening soon. Students whose parents opted for brick and mortar learning will be back to their school site. Additionally, parents have the option to change their previous choice made in July by completing a form located in the RMS website. According to the Superintendent, safety measurements will be in place. Some examples of precautions to stay safe are one-way hallways, wearing masks, social distancing, and hand sanitizing stations. In classes there will be less desks, and enough space between the desks. Those students who chose online learning from home option will continue connecting with their teachers through zoom. As always taking precautions and safety measures is the number one priority. Hope to see you soon, stay safe, RAMS!

WHAT'S HAPPENING IN SOUTH FLORIDA

• Weather

It's Hurricane season and there have already been many storms. With the season ending November 30, there will be more to come! So, make sure you have your supplies and stay informed.

• Sports

Miami Heat won division title and are headed to the finals against the Lakers, Marlins are in the playoffs and the Dolphins have started the season 1-2. No matter your sport, Miami has something for everyone!

• Entertainment

This year is an exciting one for game consoles! The Xbox Series X will be available on November 10th, and the brand-new PlayStation 5 on November 12th. Along with games, many fun movies and shows will be coming out soon, some examples are Jurassic World 3, Minions: The Rise of Gru, Batman, and many more.

On September 11, 2001 there were a series of four coordinated attacks against the USA. Every year since then, we take a moment to remember and pay tribute to the almost 3000 people who lost their lives.

UPCOMING EVENTS

October (Day TBA):	Back to school for those students whose parents chose "brick and mortar" on the July survey.
October 24:	End of first grading period.
October 28:	Beginning of second grading period.
TBA:	Open House

Online School

The online learning platform makes it harder to support all students' different educational needs. Students at home can be very distracted when learning. How will Riviera continue its excellence? Teachers are up for the challenge when it comes to students' learning by motivating them and making sure they participate. Administration will also be monitoring classes. The Guidance Counselor is available as well for additional support.
